

HyMeX

# MAIN WORKSHOP OUTCOMES AND GENERAL DISCUSSION

P. Drobinski, V. Ducrocq & P. Lionello

## 1) Data collection, archiving, dissemination, data sharing policy

- Data sharing chart to be elaborated by the HyMeX ISSC
- OMP possible candidate for managing SOP/EOP data base and meta-database, and IPSL possible candidate for managing the HyMeX satellite data base (data extraction, on the HyMeX domain, production of specific products,... IPSL was in charge of that action for AMMA): to be discussed within the ISSC

## • Need to reinforce WG5 :

- Heavy precipitation and flood + droughts + water usage in relation with land use) (inputs from WG2 expected)
- Plinius conference (September, 7-11, 2009 - Barcelona): Impact studies session
- Dedicated WG5 meeting in fall with representatives of WG2,3 and solicited people

## 3) Fundings

- The HyMeX project will not be funded as a whole
- Small consortia must be set-up in relation with specific calls (e.g. AUF, CSCMED, FP7 calls → 5 possible proposals with mandatory partners from the South for all calls)
- Coordination is needed with the ISSC for bottom-up (information of issued calls) and top-down (coordination, help in consortium set-up,...) information

## 1) Next actions

- Task Team progressively set-up starting June, 15 2009
- *2<sup>nd</sup> draft of the Science Plan: September, 15*
- *1<sup>st</sup> draft of the Implementation Plan: October, 15* (including first inputs of the task teams)
- Responses to the identified various calls
- Meetings
  - GEWEX teleconference (HYMEX/GEWEX boards) + meeting (Melbourne, Australia, August 2009) for GEWEX/CEOP issue
  - US HyMeX meeting as a side-event of the AMS conference on mesoscale processes (Salt Lake City, USA, August, 2009) for US contribution discussion
  - GPM meeting (Paris, France, June 2009) for establishing links between HyMeX and GPM community
  - Plinius conference (Barcelona, Spain, September, 2009) with a MedCLIVAR-HyMeX side-meeting on precipitation data rescue (MedCLIVAR) and collection (HyMeX)
  - THORPEX symposium (Monterey, USA, September, 2009)
  - WG5 meeting in fall 2009 (location to be discussed)
  - ISSC meeting in fall 2009 (near Munich)
