

**Science Working Group and Task
Team leaders meeting
7 June 2010
Bologna, Italy**

Venue:

Room 216 (first floor, the stair is in the middle of the entrance hall)
CNR
Via Gobetti 101, Bologna, Italy

Objectives:

The aims of the meeting are :

- to verify that the International Implementation Plan (IIP) as designed by each Task Team well matches the program strategy of the five science Working Groups described in the [International Science Plan \(ISP\)](#)
- to identify lacks in the IIP that have to be discussed during the 4th Workshop parallel sessions
- to coordinate the preparation of the next IIP drafts.

For that it is proposed to review Task Team IIP proposals (observation, modelling) of each of the TTO, TTM and TS for the three observation phases of HyMeX. **It is asked to leaders of the TTO, TTM and TS to prepare one or two slides for each observation period** (if concerned) **describing their IIP proposal for the observation period.** It would be fine if the .ppt or .pdf could be sent to the HyMeX Project Office (hymex@cnrm.meteo.fr) by April, 27, even if no leader of the task team participate to the meeting.

Timetable:

9:30-10:00: Introduction – *V. Ducrocq*

10:00-11:30: Long observation period (LOP)

Chair: A. Mariotti, A. Chanzy, W. Ludwig (?), S. Somot, C. LLasat

11:30-13:00: Special Observation Periods (SOP)

Chair: E. Richard, C. Estournel, A. Montanari, B. Ivanean-Picek, S. Josey (?)

13:00-14:00: Lunch

14:00-16:00: Special Observation Periods (SOP)

Chair: E. Richard, C. Estournel, A. Montanari, B. Ivanean-Picek, S. Josey (?)

16:00-16:15: Break

16:15-17:45: Enhanced Observation Period (EOP)

Chair: G. Delrieu, R. Romero (?), I. Braud, K. Beranger, I. Ruin

17:45-18:45: Synthesis for preparing the Workshop Parallel Working sessions and the next draft of IIP.
